To Magnolia Center:

Time Warner Business Class is able to provide your business with telephone service, high speed internet connection and cable television. Time Warner owns the entire digital network and is one of the fastest growing business communications companies in the country. It would be my pleasure to work with you to design a communications plan that will meet your needs today and in the future while containing cost.

Our telephone services are very competitive when compared to those of other carriers. Here are a few highlights –

- Up to date all digital network
- Over 20 standard telephone features delivered at no extra charge
- Local calls included
- Caller ID on each line
- Retain your current phone numbers and phone equipment
- Three cost effective calling plans
- Free 800 number

Time Warner is also able to provide you with cost effective online backup of your data as well as world class firewall and virus protection plans that will protect you against the types of attacks that can place your business in jeopardy.

Please review the information I have included and contact me to discuss your needs further.
